## Culinary

This dynamic and engaging opportunity is designed to introduce young minds to the exciting world of cooking. Tailored for middle school students, this program combines fun and learning as participants explore basic culinary techniques, kitchen safety, and the art of crafting delicious dishes. Under the guidance of experienced instructors, students get hands-on experience in the kitchen and develop teamwork and communication skills.

## Construction/Makerspace

This is an exciting and hands-on experience designed to introduce young minds to the fundamentals of construction. This program offers middle school students a unique opportunity to explore the world of building and design through interactive projects and workshops. Participants learn basic construction techniques, safety protocols, and the principles of architectural design.

## STEAM

This is a dynamic and immersive experience designed to captivate the curious minds of middle school students in the realms of Science, Technology, Engineering, Arts, and Mathematics (STEAM). This program engages participants in a wide array of hands-on activities, experiments, and projects that integrate various disciplines, fostering creativity and critical thinking. Through interactive workshops and collaborative projects, students explore cutting-edge concepts in robotics, coding, scientific experimentation, and artistic expression.
